- English (Fluent)
- Serbian (Native)

PROFILE

Experienced React and React Native Developer with a strong track record in delivering high-quality web and mobile applications. Specialized in creating responsive, performant, and user-friendly solutions for clients across banking, e-commerce, and service industries. Currently seeking a long-term role to contribute technical expertise within a dedicated product team.

WORK EXPERIENCE

Freelance   2020 - Present
React Native Engineer & Technical Consultant

- Delivered end-to-end solutions from design to deployment for multiple clients in banking, e-commerce, and other services.
- Implemented responsive UIs, integrated third-party APIs, and optimized performance for cross-platform mobile apps.
- Reduced development costs by average 40% through cross-platform solutions

∗∗ Social Network Platform∗∗
- **Tech**: React Native, Supabase (Auth/Realtime), WebSockets, Expo, redux, context, animation
- Built a React Native social networking app powered by Supabase, featuring a follower system, real-time chat, and post sharing. Enabled users to connect instantly, boosting engagement by providing seamless real-time updates and scalable infrastructure.

∗∗ Ananas E-Commerce Platform∗∗
- **Tech**: React Native, Graphql, React Query, React Context, Web Sockets, react native cli
- React Native Developer for an e-commerce app. Developed robust UI components and integrated APIs, enhancing shopping experience and supporting thousands of daily active users with stable iOS and Android performance.

∗∗ Carrier Mobile Logistics App∗∗
- **Tech**: React Native, Graphql, React Query, React Context, google maps,rest, react native cli
- Developed a React Native app for truck drivers in America to streamline workflows, stay connected, and optimize routes. Reduced route planning time and improved operational efficiency for drivers through real-time data handling.

∗∗ Mobi Bank banking App∗∗
- **Tech**: React Native, context, redux, expo,
- React Native Developer for a mobile e-banking app. Built and optimized front-end features, collaborated with UI/UX designers, resulting in improved customer satisfaction through intuitive and responsive banking features.

∗∗ Second Life Marketplace∗∗ (Consultation)
- **Advised startup on**:
  - React Native architecture for complete project
  - State management strategy
  - Ui optimization
  - Expo for faster mvp delivery
  - Unit testing, e2e testing
  - Best libraries for their use case

∗∗ Chat Application∗∗
- **Tech**: React Native, context, redux, detox, jest, react query
- Built 20+ reusable React Native components (Buttons, Modals, Form Fields)
- Integrated i18next with 5-language support
- Configured Jest + Testing Library for unit tests (85% coverage)
- Light/Dark mode theme setup

∗∗ **Note**∗∗ As a freelancer, I worked on multiple short to medium-term projects with clear deliverables and successful launches. I am now looking to apply my experience in a long-term role within a product-focused team.

*** Webinterpret***

2019-2020

Front End Developer

- Worked as a Front End Developer fixing display issues on company websites using HTML, CSS, JavaScript, and jQuery. Improved website accessibility and user experience by resolving styling and functional bugs across multiple platforms.

*** Bintiger***

2018-2019

Web Developer

- Worked as Web Developer using Laravel, HTML, CSS, JS, and jQuery. Delivered responsive websites and improved front-end performance, aligning with client requirements and design standards.

Motel Stari Hrast (Freelance project)

Web Developer

- Designed and developed the complete website for Motel Stari Hrast, creating both the visual design and front-end implementation using HTML, CSS, and JavaScript for a responsive and modern online presence.
